# FAST, FREE & SIMPLE

Wound Manager products can all be delivered direct to a patient's home.

We take the hassle out of repeat prescriptions with our **Electronic Prescription Service (EPS)** or GP prescription collection service from patients own GP.\*

We are brand neutral, providing your patients with any stoma/wound manager, urology or rectal irrigation products from any manufacturer; whatever their needs and wherever they are in the UK.

\* Option Wound Manager Extra Large is not available on prescription

**PLUS** Patients receive our complimentary items all designed to help after surgery, including toiletry bags, waterproof mattress covers and radar keys.

**OakMed**   
Giving you more choice.

## WOUND MANAGERS

Our abdominal wound managers come with slim, absorbent and hypo-allergenic hydrocolloid. A flexible adhesive, which is secure enough for even more mobile patients.

They are available with or without an access port so you can swab, irrigate, or debride the wound without removal so extending wear time and cost effectiveness.

**Additional benefits, include:**

- ✓ A comprehensive range of sizes to suit most abdominal wounds.
- ✓ Instructions for use with each individual wound manager.
- ✓ Separate template for use with each individual wound manager.
- ✓ "Do not cut beyond" marker line on both adhesive and template.
- ✓ Tubing included to connect to drainage systems if needed.

All our Wound Managers are available on prescription\* and can be delivered directly to the patient quickly and easily via our free GoldCare home delivery service (see opposite for more information).

Alternatively, they can be purchased through NHS supplies or directly from us. You will find them competitively priced and a departmental starter pack containing a wound manager of each size is available to buy.

**Abdominal Wound Managers are suitable for:**

- ✓ Open abdominal or dehiscid wounds
- ✓ Small wounds requiring drainage bags
- ✓ Fistulae management
- ✓ Where VAC therapy is contraindicated
- ✓ Drainage sites

\* Option Wound Manager Extra Large is not available on prescription
